 - Chancellor
 - Chief Guest
 - Chair of BoT
 - Chair of Council
 - Vice-Chancellor
 - Members of BoT
 - Members of Council
 - Deputy Vice-Chancellors
 - University Management Members
 - Deans of Schools and Directors
 - Members of Senate
 - Academic Staff
 - Alumni Representative
 - Dean of Students
 - Students' Representatives

The Chancellor and visitors leave at their own pleasure.

OUR CHIEF GUEST

Rev. Dr. Jane Leach, Principal of Wesley House, The Methodist Theological College, Cambridge, UK.

It is my great pleasure to be joining you today and sharing in your success. I bring you greetings from Wesley House, the Methodist College in Cambridge where I am Principal, and where your Chancellor and I studied theology together many years ago. I thank him, the Vice Chancellor, the Board, the Staff and all those who have supported you personally through the journey of your lives to this point. This is a real milestone to celebrate.

Milestones are an opportunity to pause, to mark how far you have come and to look at the horizon and think about where you are headed. They are an opportunity to remember who you have travelled with to this point, to take nourishment and rest a little while with those who are with you now, and then to set your course into the unknown.

Setting a course means deciding on your destination. Whether you use an old-fashioned compass or the GPS application on your phone to work out your route, you need to know what your goal is going to be. Where are you headed? What is going to be the driving purpose of your life? Then you can take the next steps.

A university education is a privilege in any setting. It gives you knowledge, skills and networks that can be set to any purpose. But from those who have received much, much is expected.

Last month I was in Nashville at an international gathering of Methodist colleges and universities from around the world. In a seminar on vaccine equity, we heard from Dr James Hildreth, an African American boy who has grown up to be a leading virologist who has invested his life in seeking to understand and arrest the spread of the HiV virus, and in more recent years, the Covid 19 virus. Now the President of Meharry Medical School in Nashville Tennessee he was asked by the audience why, when he already had achieved so much success, he had responded to the government's call for scientists and leaders who could help to steer the US response to Covid 19. It has been an uphill struggle trying to persuade reluctant ethnic minority populations who have been abused by pharmaceutical companies in the past to take up the vaccine, he said. And an uphill struggle to persuade pharmaceutical companies and the US government that it is in the best interests of everyone to make affordable vaccines available across the whole world before another deadly variant emerges. But, he said, I was taught by my mother that 'from those who have received much, much is expected'.

At this juncture, fresh out of college with your certificate in your hand, you cannot know what opportunities life will bring that will enable you to make a difference and whether the difference you will make will be on a small scale or on a large scale. You can decide now, though, what kind of difference you want to make and how large a map you want to live on. Who do you seek to serve? And what kind of good do you want to do in the world?

Western models of education have the tendency to privilege individual achievement and to shape us as individuals who think that the privilege belongs to us. Wherever Western schooling has had an influence, we are all at a risk of this kind of thinking. African philosophies of life know better, though, that we are only who we are because of who others are and that whatever educational qualifications we have achieved we have not achieved them alone and they are not only for your own benefit but for building up the whole community. And those who have the privilege of having been to a university have received from the best that the universe has to offer and are invited to seek to make a universal difference.

Today is a milestone. It is a day for resting and eating and celebrating with those who

have shared the journey, but it is also a day to ask, 'Where I am headed?' 'What impact do I want my life and work to make?' 'With the knowledge and skills that I now have, who will I serve?'

You cannot now, perhaps plot the whole route to the difference you want to make. You can, though, take this moment as you pause today to check your equipment and choose your companions for the next stage of the journey.

Because to navigate the twists and turns of life in ways that make a positive difference to the lives of others, you will need a compass that is set to true north, and friends and mentors who will keep you true to your best self and the difference you want to make in the world, despite many temptations to stray from the path.

This university, with its Methodist identity, has provided you with a compass set to true north. A compass that has the liberating love of God as its north and sets truth and justice and courage as its east and west and south - because for any endeavour to succeed these are the essential reference points.

I encourage you therefore, as you set out on this next leg of the journey, to use this moment to decide what difference you want to make in the world, to use the equipment you have been given at KeMU to navigate the opportunities and challenges ahead, and to choose your companions for the journey because, 'from those who have received much, much is expected'.

Congratulations!

CHANCELLOR'S GOODWILL MESSAGE

Rev. Joseph Ntombura Mwaine – BA(Hons) Theology(CANTAB) , MA. Theology (CANTAB), Presiding Bishop, MCK and President Africa Methodist Council.

Enhanced Skills

May I take this opportunity with great joy to welcome all of you to this joyful occasion at our university. On behalf of the Methodist Church in Kenya, the Board of Trustees, the University Council and on my own behalf, it is my great pleasure to congratulate all the 2022 graduands during this 22nd graduation ceremony of Kenya Methodist University (KeMU). You have really attained this successfully and undeniably you have even greater potential than when you began your studies in this university.

“Welcome to the next phase of life and always never forget to search for divine direction and the wisdom of God.”

My distinctive acknowledgement goes to the members of faculty, administrative staff as well as all other support staff that in one way or the other have prepared you during your studies in KeMU. Amidst many challenges, they ensured that you are thoroughly and successfully furnished with skills that will enable you accomplish God's will and purpose in

your life. Apart from the faculty and other support staff, I really acknowledge the support that was accorded to you by your parents, spouses, family members and other relatives, friends as well as fellow students who with great love and effort offered you a hand in one way or the other.

I commend the Methodist Church in Kenya, the University Board of Trustees, the University Council and all the other organs of the university, for your diligent efforts in supporting and equipping our graduands throughout their studies in order for them to be holistically equipped citizens and patriots who will meaningfully add value to Kenya and beyond.

Our theme for this year is, “Enhancing Skills Based Education and Training for Sustainable Economic Development”. Kenya Methodist University has produced you as comprehensive leaders, polished with knowledge and skills that will foster the development and sustainability of the economy of our country Kenya and the world at large. I am glad to remind you that you are now a potent generation in human history since you have a significantly industrialized technology at your expertise that presents you with an opportunity for versatile career, intellectual, personal, social and spiritual growth.

Remember, though there are numerous

challenges in the world today; unemployment, corruption, famine, high cost of living, poverty and disease just to name a few, you are equal to the task since you are holistically nurtured. I challenge you to go ahead and innovatively create a different world where there is poverty reduction, diseases management, and creation of employment. I have faith that you can create a new world and a new Kenya as you journey with God, where prosperity, peace, justice, love, integrity, creativity and innovation are the norm. Be assured that KeMU will always be proud to see you utilize the knowledge and skills you have attained to bring transformation in the world at large.

Welcome to the next phase of life and always never forget to search for divine direction and the wisdom of God to help you distinguish yourself as an outstanding person. I assure you that you are not alone because God will be with you as the ultimate basis of your strength, power, success and protection as He presents you with a hope and a future in your journey with Him.

Once again congratulations on your graduation and my prayer for you is that: MAY THE LORD MAKE HIS FACE SHINE UPON YOU AND BE GRACIOUS TO YOU, THE LORD LIFT HIS COUNTENANCE UPON YOU AND GIVE YOU PEACE.

God bless you, God Bless KeMU and God bless Kenya!

Mr. Gitonga Muriuki

Mr. George Mutwiri

Mr. Alban Mwendar

Bravo!

It is a great pleasure for me to witness this year's graduation ceremony and I take this opportunity to congratulate the graduating class of 2022. You have indeed given us great pride and a sense of satisfaction in the knowledge that you are our champions and will advance our course to the Kenyan public, the African region and the entire world.

This year's graduation theme of "enhancing skills based Education and training for sustainable economic development" is indeed very timely and relevant to the needs of the Kenyan Economy where skills in themselves are very critical but proper grounding in integrity and morals are even more important in our national set-up where corruption and other vices have become widespread. We at KeMU are happy to churn out graduates that are not only well skilled but also grounded in faith and deep morals in line with our vision of being "a globally competitive University producing the next generation of professional and transformation leaders". I have no doubt that we in KeMU have

been able to inculcate a desirable culture in the graduating class and believe that they are fully prepared to face the world and bring about the desired change.

On behalf of my colleagues in the Board of trustees, I want to thank the various governance organs of the University for the dedicated service to the students that has culminated into what we are celebrating today. Indeed, the various organs have made their rightful contributions and ensured that despite the odds in the operating environment, we have been able to churn out the current graduands. Congratulations to all the team players for a job well done and more congratulations to the graduands for your great success which has given us a reason to celebrate. The board of trustees is very much alive to the challenges and the competition in the industry for scarce resources. We are also alive to the fact that our facilities have not been able to cope with increasing demands and are even getting more strained. However, we are making relentless efforts to live up to the expectations and carry out the responsibilities bestowed on us in the

service of this great university. We will be enlisting the support of all our partners in achieving our mandate in order to offer a conducive learning environment for students who will wish to advance their carriers in this university. We hope and pray that next year will offer a better economic atmosphere for the many plans we have especially on raising funds to achieve some of our infrastructural projects. We will be calling on most of you to partner with us on these endeavours. Finally, let me wish the graduating class of 2022 all the best in their future endeavours and indeed God's favour as they explore their next level of exploits. I believe and pray that the foundation we have accorded you during your stay in this university has prepared you to generate ideas, use the skills and technology to better your lives and those of your families. God bless you abundantly.

Hon. Silas Muriuki,
Chairman, BoT,
Kenya Methodist University.

Let's transform the world

On behalf of the Kenya Methodist University Council, I take this opportunity to congratulate the graduating class of 2022. This achievement could not have been realized without the many sacrifices that you, your parents, guardians and supporters have made to ensure that this becomes a reality. We salute them. I also wish to congratulate the Senate, Management Board, faculty and all the support staff who ensured that you received the best service while enrolled at the university.

In keeping with this year's graduation theme of "Enhancing Skills-Based Education and Training for Sustainable Economic Development", Kenya Methodist University has positioned herself as a leader in the higher education sector, by always being at the cutting edge of educational modernization in this country. We have been among the first universities to put in place institutional mechanisms for adoption and integration of the newly introduced CBC curricula. Already, our curricula have been revised to accommodate these among other required changes to address the needs of a changing world. The university graduates, like yourselves, provide the much-needed human resource for

our country's developmental needs. In addition to these are a myriad of challenges requiring research, both basic and applied, for the achievement of our common developmental goals as a country. Leadership is another aspect of our training that the country and humanity at large require. For humanity is lost without ethical leadership. The university has aptly responded to this need by emphasizing ethics, and the integration of faith, work and learning in all its programmes. It is our hope, and expectation that this practice will permeate all environments in which you will eventually serve.

The University has also responded to the global demand for properly trained manpower at lower levels by providing technical training from certificate upwards, in our fully accredited KeMU TVET institute. The institute is currently implementing 8 certificate and 5 diploma programmes across our three campuses and at Meru Town Center. This initiative provides a pathway for those with lower academic grades to formally advance their academic career while at the same time providing the much-needed standardized personnel for the informal 'jua-kali' sector, which is the epitome of Kenyan engineering at the lower levels. By standardizing

this sector, the country is slowly cementing the foundation for future generations.

As a Council, we are alive to the fact that we need to modernize both our infrastructure supporting teaching and learning to match the needs of a rapidly changing environment. We are committed to make this a reality despite the challenging economic environment posed by the various factors including the COVID 19 pandemic and other global impactors on economy. To this end we intend to address the major infrastructural challenges to growth and sustainability of the University as captured in our Strategic Plan 2018-2027 and those that are emerging now. These include, inter alia, teaching resources, student extracurricular resources, logistical resources including transportation among others.

Finally, graduands, whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable - If anything is excellent or praiseworthy, think about such things. Whatever you have learned or received from KeMU, put it into practice (Phil. 4)

Thank you and may God always light your path.
God Bless KeMU!

MESSAGE FROM THE CHAIRMAN

MESSAGE FROM THE VICE CHANCELLOR

Prof. David Gichoya, BEd, MSc, PhD
Vice Chancellor

Be creators of a sustainable future

It gives me great pleasure to congratulate the class of 2022 during this 22nd graduation ceremony at Kenya Methodist University (KeMU). Indeed, it has been a long walk to the finish line and to God Almighty we give the glory. The end of this race marks the beginning of the next composed of further studies, employment and most importantly job creation.

Today, we are further delighted to be graduating KeMU's first class of TVET students. We believe that the skills and competencies gained over the past few years at KeMU, have

well prepared and favorably placed you ahead of other cohorts in your respective fields. Our students complete their studies in record time courtesy of commitment of lecturers and discipline of the students. I can assure you that your lecturers, parents, guardians, sponsors and friends are all very proud of you today.

Education is recognized as the pillar that fosters opportunities for empowering people with knowledge, confidence and independence they need for building a knowledge-based and sustainable economy. Our academic programmes provide well balanced theoretical content, development of skills and competencies as well as values and attributes required today in our society. Here at KeMU, we believe that while economic development may be necessary to meet human needs and improve the quality of life, it must happen without depleting the capacity of the natural environment to meet present and future needs.

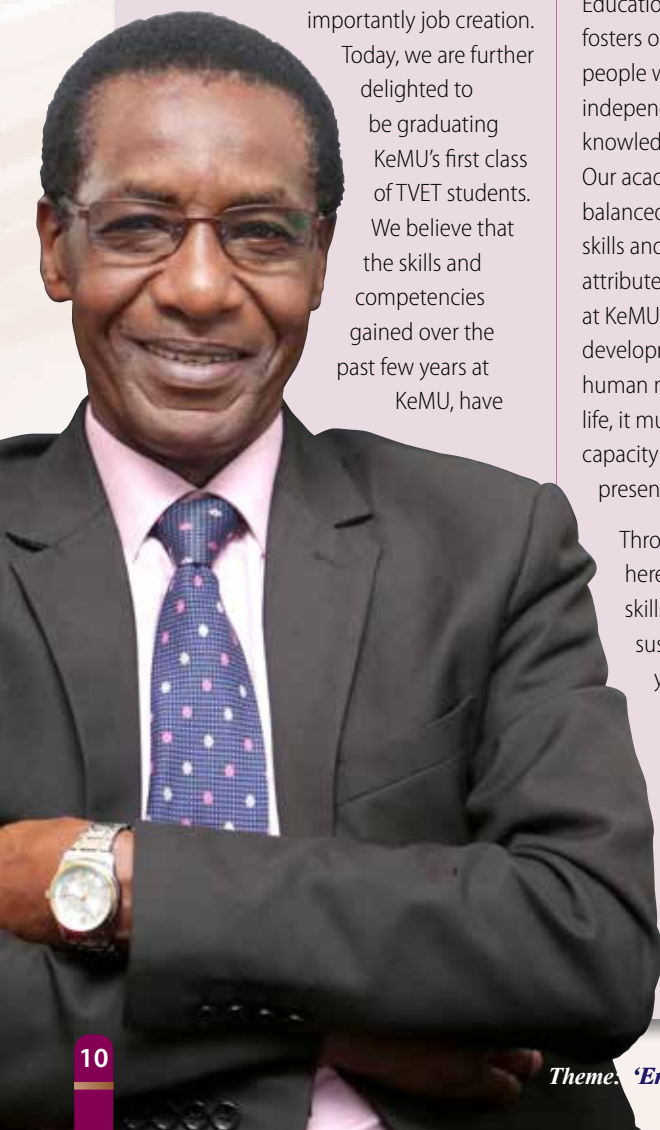

Throughout your education journey here at KeMU you have gained the skills necessary to thrive in the new sustainable world, while ensuring you meet the needs of the current economic scene without compromising the ability of future generations to meet their own needs and requirement. The world is in need of creators and innovators who will help in providing sustainable solutions to emergent challenges.

Graduands, as we release you, serve as KeMU's goodwill ambassadors wherever you will be. Consider yourself as an agent of positive transformation and a creator of the future. Embrace the challenges and get ahead of the change. Find your purpose and take your share in shaping the new world. I am satisfied that your academic experience at KeMU has grounded you well enough to go out and leverage the many opportunities in our modern world. I am sincerely happy that newly acquired skills, values and principles instilled along the way which will serve you well throughout your life. Ensure that you continually sharpen your skill base through life-long.

At KeMU our doors remain open to you to further your studies. If not a masters or doctorate degree, you can benefit from a second degree that enhances your skills and ability to perform or create employment for others. You could also partner with us in joint research and innovation undertakings for the betterment of our society.

As you bid us farewell, I request all our today's graduates to register as alumni and keep connected as we join hands in building our University. Be a partner as we strive for excellence.

Once again **congratulations** on your graduation, become creators of a sustainable future.

MESSAGE FROM THE DEPUTY VICE CHANCELLOR, ACADEMIC & STUDENTS AFFAIRS

Rev. Dr. Mary Kinoti BD.MTh., PhD.

We have prepared you to confront and create solutions to complex societal issues

I take great delight to congratulate you, Class of 2022, together with your parents, guardians, family members, KeMU staff, students' body, and all people of goodwill that supported you. Today marks a joyous occasion that warrants thanksgiving to our God Almighty.

During the years of study that you have been with us, you have learnt to think critically, analytically and coherently while holding firmly to the highest standards of personal conduct. I challenge you to pause and reflect on how today's achievement will transform the world as you embrace discipline, ethical values and faith in God. Strive to offer selfless service in line with the KeMU vision, mission and philosophy. Reflecting on this incredible journey, we

rejoice in the contributions the University has made in the local, regional and global development arena in the last 25 years. Our graduates are a true reflection of today's graduation theme 'Enhancing Skills Based Education And Training For Sustainable Economic Development'. I further invite you to join and be part of over 40,000 KeMU alumni, including members of our pioneer class of 1997 who are doing great exploits around the world.

The Academic Division is organised in four Schools that run over 80 academic programmes. In addition, the University provides forums to disseminate research output developed by staff and students. One such forum is the online International Journal of Professional Practice (IJPP) which allows them to publish their research findings. The University also holds Annual International Research Conferences that bring together researchers across the globe to share ideas and build a community of learners from a multidisciplinary approach. Plans are underway to enhance the KeMU

incubation centre to provide technological facilities, avenues for initial growth funds, network and linkages, co-working spaces, lab facilities, mentoring and advisory support to researchers.

The Academic Division has continually engaged in community service activities to reach out to the needy within and outside the University. Last year, the Division launched a scholarship fund called "Bless to Bless", where members of staff and students contribute finances and other materials. The initiative has supported over 20 needy students by paying school fees and meeting subsistence essentials. The Division continues to explore more avenues to raise funds to support needy students. I call upon our graduates who are present with us today to come in and support one student.

Last but not least, the KeMU family is guided by Christian values in moulding our students holistically throughout their course of study. We live by our motto: Laborare est Orare – To Work is to Pray.

Cheers Class of 2022!

Prof. Kenneth Mugambi

MESSAGE FROM THE DEPUTY VICE CHANCELLOR, FINANCE & ADMINISTRATION

Congrats!

It is my pleasure to congratulate all the graduands of the KeMU 22nd Graduation for their achievement and handwork resulting in today's ceremony. I also wish to thank your parents and guardians for their important role in the journey.

KeMU believes in providing excellent support and facilities to our students. We have made deliberate efforts to continually improve our service delivery. Our processes are constantly evaluated in order to provide flexible, adaptive and modern services that meet the diverse needs of our clients. Key to this is the full automation of our processes which have improved service delivery to our clientele.

To ensure provision of quality education to our students, the University is collaborating with other institutions of higher learning, hospitals for medical and health programmes and research institutions both within Kenya and outside. This provides good opportunities for the University to benchmark our programmes. Through these collaborations, students and academic staff are exposed to the right environment for the much needed experience and this helps improve the quality of learning.

As you move on to your next stage in life, our expectation is that you shall serve your communities well, keep close links with the University through the Alumni Association and lead wherever you will be. We call upon you

to become our ambassadors as we seek to positively contribute to the transformation of society.

Once again congratulations on your graduation. This is just the beginning of your success, keep doing hard work like you always do, and you will realize how fast success follows.

MESSAGE FROM THE REGISTRAR, ACADEMIC AFFAIRS

Prof. Peter Kihara
Registrar, Academic Affairs

Congratulation class of 2022!

Today marks a joyous and momentous occasion that goes into our history books. The occasion warrants celebration and thanksgiving to our God Almighty for making it happen for each one of you. I take great delight as I join KeMU fraternity to congratulate you; Class of 2022 together with your parents, guardians, family members, well-wishers, KeMU staff, students' body and all people of goodwill that supported you.

During the years of study that you have been with us, I am convinced that we have prepared you to confront major challenges of life. You have learnt to think critically, analytically and coherently. You have learnt to design creative solutions to difficult problems confronting the society. You have also held firmly to the highest standards of personal conduct and the trust that comes with it. We note that this class showed a lot of resilience during COVID 19 pandemic. Above all, you have learnt to offer selfless services to those around you in line with KeMU vision, mission and philosophy. You also graduate at an eventful time when we celebrate the 25th anniversary of KeMU.

Reflecting on this incredible journey, we rejoice in the contributions the University has made in the local, regional and global development arena for last two decades. Our graduates are true reflection of today's Graduation theme 'Enhancing Skills-based education and training for sustainable

economic development' Go out there and blossom. I further invite you to join and be part of over 40,000 KeMU alumni, including members of our pioneer class of 1997, who first stepped into KeMU classrooms twenty five years ago. These are great men and women who are doing great exploits around the world. As Class of 2022, I challenge you to pause and reflect on how your today's achievement will change and transform the world? We take pride in you! I challenge you to embrace discipline, ethical values and faith in God as you become ambassadors of social justice in the society.

The Academic Division is organized in four Schools that develop, host, nurtures and provide leadership to over 80 academic programmes offered in the University. There are also supporting directorates, departments, institutes and Centres. In line with today's theme, I am happy to note that over the last one year, the Academic division has witnessed remarkable growth in student enrolment, academic staff recruitment, adoption of innovative learning methods and above all development and implementation of need based programmes. The main focus of our academic programmes is to produce quality graduates with relevant knowledge, skills and appropriate work behaviours to contribute to the transformation of society. To achieve this, the University has continually invested in the required resources to support implementation of the academic programmes. The University is passionate about using technology to drive learning. This is evident by a state of art digital learning platform to ensure excellent academic experience of our students. The platform supports learner centered approaches to learning.

Further, the faculty and students have continuously engaged in research activities. The University has provided forums to disseminate

research output. One of them is the online International Journal of Professional Practice (IJPP) which allows staff and students to publish their research findings. The University also holds Annual International Research Conferences that bring together researchers across the globe to share ideas and build a community of learners from a multidisciplinary approach. Plans are underway to enhance KeMU incubation centre to provide technological facilities, avenues for initial growth funds, network and linkages, co-working spaces, lab facilities, mentoring and advisory support to researchers.

The Division has continually engaged in community service activities to give back to the community and reach out to the needy within and outside the University. Last year, the Division launched a scholarship fund "Bless to Bless", where members of staff and student contribute finances and other materials. The initiative has supported over 20 needy students by paying school fees and meeting subsistence essentials. The Division continues to explore more avenues to raise funds to support needy students. I call upon our graduates who are present with us today to come in and support one student.

Last but not the least; the Academic Division is guided by Christian values in molding our students throughout their course of study. The University has strongly integrated faith and learning to ensure intellectual, spiritual, emotional and physical development. The University embraces the concept of holistic development of our students. Character and morality are our guiding principles that drive our day to day activities in the University. KeMU is a family bound by fundamental core values that we pledge to uphold. Our motto is Laborare est Orare – To Work is to Pray.

Congratulations class of 2022!

MESSAGE FROM THE REGISTRAR, PLANNING AND DEVELOPMENT

Dr. Stephen Laititi Mutunga, PhD, MBS
Registrar Administration, Planning And Development

Go out there and make a difference.

The graduation season is here again; and this time, a physical one at that. I remember in 2020 on the eve of graduation, meeting a graduand who had just been informed that the ceremony would be virtual and would not be held in campus. She had just collected her complete graduation attire i.e the gown, the hood and the mortarboard, ready for the big event. When I met her, she had just heard the “bad” news from the academic registrar that she would proceed home to celebrate with the family and follow events online. She was inconsolable! What kind of graduation would that be? How would she travel all the way from Nakuru to Meru only to be told to go back and await an online graduation? How could a graduation be possible from home? How would she share goodies and photos with friends and family? etc. My best effort at comforting her came a cropper! I eased my way and let her deal with it her way. This is when I realized that graduation ceremonies still mean a lot to the graduands. After more than 30 years since I first graduated, I had forgotten the feel and indeed, I thought the importance of the function had waned over time; or had it?

Having observed the trends in the recent past, I want to single out the current graduation class for their resilience and industry. Though the world is still smarting from the effects of the recent pandemic, the current class of graduands have borne the brunt of its magnitude in full measure. Besides that, there has been global shocks that have affected even villages in rural Kenya, in terms of increased food and fuel prices to

unprecedented levels. Therefore, to be fair to the current class, they have been exceptional in their efforts and determination to conquer the academic challenges despite all odds to which we say a big CONGRATULATIONS!

We in administration have been privileged to continue to offer a conducive environment for academia to thrive in the University. We have taken exceptional pride in carrying out this role and perfecting it even in the midst of glaring challenges, in the full knowledge that challenges will always be around and the defining difference in success or failure is on how one manages to maneuver them. The graduating class is entering into a world full of other forms of challenges besides or different from the ones they have been facing as students. This is a bigger arena and the players are vast and diverse. It is an interesting, and somewhat scary field all together. However, it is the way to go.

I am normally encouraged, and would indeed encourage the fresh graduates coming out of

here today in the words of Paul in Philippians 4:13 “I can do all things through Christ who strengthens me” This is a realization that you are not on your own. You have a partner who will always be there to strengthen you if you call on Him. He is our Lord and Savior Jesus Christ. I also want to encourage our graduates in tackling life with full realization that we belong to the larger society and have to share the space with others. I get energized by the words of Romans 12:18 KJV “If it is possible, as far as it depends on you, live at peace with everyone” This statement anticipates that it may not be possible to be peaceful with everyone but it is a choice since to a large extent, it depends on you. Chose to try and make it possible on your part and let the others do theirs; but peace, is what we all need.

Finally, my challenge to the graduates leaving today is to innovate. You can give all excuses, even reasons for not making it in life but no amount of either would be enough to cause you to make a difference. The only difference that you make comes from your personal efforts, divine guidance and focus; not necessarily in that order. It is incumbent upon all of us to question what purpose our creator had to bring us to this world and whether we have accomplished it. It is also necessary to see how we can do so in our remaining time. Without this, our purpose here on earth may never be fully realized and we may not be able to account for it. Therefore, go out there and make a difference. Do not just lament! Do what we can, and God will bless you all.

Congratulations.

MESSAGE FROM THE UNIVERSITY LIBRARIAN

Prof. Paul Maku Gichohi

University Librarian

The KeMU Library congratulates all students who are graduating today. Certainly, the library takes pride in your academic success

Embrace Hardwork and Integrity to Serve the Society

story considering its role in enabling you to access diverse and quality information sources and services. We are also proud that the library resources have contributed significantly to moulding your scholarly and literary character and kindled your research behaviour. Indeed, the KeMU library remains a place for inspiration and knowledge discovery. Having acquired the requisite knowledge and skills, I challenge you to

apply the same in your discipline with a view to contributing to the sustainable economic development of our great nation. Finally, I encourage you to continue visiting our physical and virtual library for mutual collaboration and networking opportunities.

God bless you.

PRINCIPAL NAIROBI CAMPUS

Dr. Susan Laimaru, PhD
Principal, Nairobi Campus

The graduating class of 2022; Today is a special day for you. You are here with your family, friends, community and entire Kenya Methodist University fraternity

Equipped for success

to celebrate a major accomplishment. CONGRATULATIONS. However, remember graduation is not an end goal on itself, instead it's a part of a larger journey. Whether you land in a career, business, or continue with your education, always remember to surround yourself with positivity, creativity, higher achievers, and with this, your success is guaranteed.

This graduation has already shown you, how capable you are in accomplishing your goals when you commit yourself to them. It's my hope that all of us here today will take this

personal accomplishment as an example of how anything is truly possible when you put your mind to it. As you continue on life's journey take each challenge with confidence, knowing that KeMU has equipped you with necessary tools to tackle your future and bring solutions to environmental concerns.

Lastly as you throw that cap in jubilation just know that journey has commenced. In this journey do not forget your, family, parents, community, and this great institution, KeMU. Always Journey with God Our 2022 Graduand!

Dr. Winfred Kithinji, PhD
Director, Mombasa Campus

MESSAGE FROM THE DIRECTOR, MOMBASA CAMPUS

Education is a process of living (John Dewey)

On behalf of the Mombasa Campus community, I join the Kenya Methodist University (KeMU) fraternity and all our well-wishers to congratulate you, Class of 2022. This 22nd graduation ceremony is not only a moment that you will live to remember with joy and a lot of pride, but also a realization that all personal or corporate goals, hopes and dreams, if well mapped out, can be fulfilled—and come true!

I am also convinced that, having been blessed with KeMU education, you are

well armoured to successfully navigate across varied paths of life and pursue bigger dreams with your eyes wide open! Remembering KeMU's mission to contribute to societal transformation, you have acquired a conscience that shall propagate new paradigms for the communities and nations in which we were born, we live and work.

As you leave KeMU to serve in 'the garden of life', consider that 'things of value do not just grow.' Since education is a process of living (John Dewey), you are expected to sow good seeds in all that you do. Set and

follow the right conditions of living and, above all, watch for pests and diseases – they rarely announce arrival! This is because you have all the vital abilities, qualities and skills to dream, live well and create a beautiful world for all of us - be the game changer that the world is looking for!

Well done and many blessings in the years ahead.

MESSAGE FROM THE CHIEF FINANCE OFFICER

Humphrey Mwenda Murugu BCOM,MBA,CPA(K),CIFA
Chief Finance Officer

With much respect and admiration, I congratulate Class of 2022 on your graduation. Your graduation today is a testimony of hard work, resilience and desire to succeed. You have made countless self-sacrifices, overcame all the challenges and diligently pursued your dreams to reach this far.

Your dream has come true: Skills and Knowledge for positive influence.

Despite the challenges in your academic journey, you have come out stronger in spirit and in character. You have persevered, overcame every obstacle on your way and today you are rightfully celebrating the victory.

The knowledge and skills you have attained will propel you to face the world of opportunities with courage, hope and determination. Let your qualification stand out to attract prospective employers, open doors for business networks and favor you with loads of opportunities. My hope and prayer is that the skills and knowledge attained will positively influence the people

around you, the Community and the World. As you cherish the fruits of your hard work, I pray that success keeps following you in everything that you do. Dream new dreams, embark on who you are, embrace life with passion, and keep reaching for the stars. You have come far, worked hard, and achieved your goal. Now go out there and make positive impact to the Community and the World at large. Congratulations on your well-deserved graduation and I wish you God's blessings in all your future endeavors.

Rev. Karani, J.P University Chaplain

"For the Lord your God is the one who goes with you to fight for you against your enemies to give you victory"

Deuteronomy 20:4- NIV.

The Kenya Methodist University Chaplaincy Department humbly congratulates all the 2022 graduands during this 22nd graduation ceremony. We give all glory to the Almighty God for your success which is our reason for celebration today. Our deep appreciation goes to the parents, guardians, staff, students and sponsors for choosing Kenya Methodist University to be your appropriate place for achieving integrity, both spiritual and physical knowledge, and have big-heartedly enabled you in one way or the other to go through your studies.

Let me remind you that the world is rapidly changing, but I encourage you always to journey with God and definitely He will present you with divine wisdom to navigate through life issues.

The Kenya Methodist University Chaplaincy Department labors to foster Christian morals and spirituality, aiming at producing complete and knowledgeable leaders of high veracity and celebrated innovation. The University community also enjoys spiritual nurture services like: baptism and Holy communion, spiritual guidance and prayers, marriage counseling, pastoral counseling,

GOODWILL MESSAGE FROM THE UNIVERSITY CHAPLAIN

prenatal counseling, anti-alcohol and drug abuse counseling, interpersonal relationships counseling, pastoral care to children, adults, the sick and the bereaved, mentorship and leadership development; as organized and coordinated by Chaplaincy Department

We wish you God's blessings, protection and favor in your future endeavors.

Congratulations!!

GRADUATION MESSAGE FROM DIRECTORATE OF UNIVERSITY ADVANCEMENT AND MARKETING

Dr. Stephen K. Maore BEd, MBA., PhD.

Director, University Advancement and Marketing

"Build your Personal Brand through skills: the future is Skills-Based"

Congratulations Graduands. You must have endured a lot in your academic journey. As the saying goes 'no pain no gain'. The pain you endured has born fruits. Its time to start eating the fruits. As you go out to the job market, it is important to note that you are not the only one with that skill. The market is crowded and therefore your ability to differentiate yourself from others play a critical role.

KeMU offers an all-round training, with a lot of emphasis on life long skills that help our graduates become multifaceted in different sectors of the economy. As you are aware, the world is fast shifting from theory based to skills-based economy. The shift is fostering productive

activities that will accelerate the creation of more and better jobs, improve social cohesion and contribute to sustainable development, creating a virtuous circle, mediated by social dialogue, in which better, higher and relevant skills boost productivity and help modernize the economy, increase employability and ensure social inclusion and better work and life situations.

The emergence of new economic activities, production processes, business models, products and services, which are expected to lead to structural shifts in future work and consequently in skills demand. As jobs become more interdisciplinary, skills and information-intensive and innovation-oriented, workers will need a combination of core skills and specialized technical skills to help them move across occupations.

I believe KeMU has impacted you with such skills to enable you stand out from the crowd. Go out there and shine. However, this will only be achievable if you can position yourself in the market by naturing values that promote

your personal brand in the market. Building a strong personal brand equity requires a balance between self-gain and societal gain. This means, it's important to continuously improve your personal skills through continuous education, while contributing to the well being of the society in general.

The future of humanity depends on our societal-consciousness today, as we pursue individual goals.

The demand for skilling, reskilling and upskilling will continue to evolve as individuals are required to undergo several job transitions throughout their working lives. For both workers and enterprises, this will mean recognizing the importance of contributing to and using the full range of lifelong learning options and continuous learning pathways.

Continue building your personal brand through additional skills. Remember, its never too late to learn a new skill. Each skill enhances your brand equity. Congratulation on your graduation. Let this big achievement be the foundation of your future destiny!

Dr. Esther Mbaabu, PhD
Dean of Students

A celebration of accomplishments

It is my pleasure to congratulate our graduands of 2022. I am so happy to share this joyous moment with you today. I believe, as you look back, you will see that there is a long and winding road that has led you to this moment of glory and overwhelming joy. We are aware that your class of 2022 has overcome extraordinary circumstances including a

global pandemic, to forge that path and arrive today as a graduate. I write with profound acknowledgment of the incredible losses that some of you and your families have endured during this global pandemic. You pressed on!

This is a time for all of us to celebrate and honor your accomplishments. As you move forward into your careers and life-long journeys, remember that your journey continues. I wish to remind you that you can accomplish anything, and do great things with the knowledge you have acquired.

The person you have become through the work you've done and relationships you've made over your time at KeMU offers sustaining hope and promise for the

immediate days ahead. I thank you for what you have contributed here! This will always be your community. Your continued development as professionals in your various fields will provide a foundation for all of us going forward.

As you find success in whatever path you take, I encourage you to seek ways to serve your community so that those who follow in your footsteps may have the same opportunity to succeed, just like you had. Always remember to thank and honor God for your every accomplishment.

I wish I had the opportunity to celebrate your accomplishments in person!

All the best in your post-graduation endeavors.

**MESSAGE FROM THE
DEAN OF STUDENTS**

MESSAGE FROM THE DEAN OF SCHOOL OF BUSINESS AND ECONOMICS

Dr. Dorothy G. Kirimi, PhD.

Dean, School of Business and Economics.

The entire School of Business and Economics congratulates the class of 2022 graduands for their tremendous achievement and hard work. It is a joyous moment for all of us to know that the journey you started on the day you joined Kenya Methodist University has yielded fruits which we are celebrating during this 22nd Graduation ceremony. The achievement will benefit you personally, your family and the community at large as you take your position as a transformational leader.

The School offers programmes in the

Innovative solutions for business challenges

following areas: International Relations, Business Administration, Hospitality Management, Commerce, Travel and Tourism at both undergraduate and postgraduate levels. Our courses promote acquisition of knowledge, interaction with the industry as well as developing innovative solutions to solve the challenges in the business environment. Therefore, we continue to receive national recognition as we strive to provide a solid ground in the necessary key managerial and business concepts, practices and competencies in all areas of specialization.

As you begin your career, join the job market, start or manage your enterprise or continue to render services to your employer, we now know that you are well prepared for excellence and quality. You will also provide innovative solutions that will create an impact in the society. Always remember our motto: "Laborare est orare" (To work is to Pray).

Thank you for considering to study at KeMU, School of Business and Economics and I hope you have created valuable networks with your colleagues and faculty in which you will continue to benefit from forever. It is my joy that we helped you shape your personal, professional and academic ambitions through the holistic academic journey we walked with you and climaxed it in the year 2022. You have acquired knowledge and skills, go out and apply and let the world realize the impact. As our theme for this year is, "Journeying with God" I wish you God's blessings as you embark on the next phase of your journey with God. Finally, I would like to congratulate and applaud all family members and friends who supported you throughout this academic journey. The best gift you can give is to do likewise by supporting other people who needs your help.

Once again, **Congratulations and God bless you.**

Dr. Tarsilla Kibaara (PhD)

Dean, School of Education and Social Sciences

MESSAGE FROM THE DEAN OF SCHOOL OF EDUCATION & SOCIAL SCIENCES

Education as a key to economic growth

The Dean and the entire school of education and social sciences congratulates you, the graduating class of 2022 for well-earned achievement today. Indeed, it has been a long journey of hard work through the years for you graduates and also your parents, guardians, faculty members and the university management at large. Through these concerted efforts, you have been well grounded with knowledge, skills, values and attitudes to impact the world with creativity and innovativeness required for

economic growth. We therefore send you out today to create jobs, to research, to innovate and transform the world in your various field of specialization.

The school of education offers undergraduates and postgraduate programs to training in education sciences, Arts, Special Needs education to equip education administrators and managers, journalists, theologians, counselling psychologists, and justice and security managers. Our masters programmes take two years while our PhD

programmes take three years. We welcome you to study with us and our graduates to move to the next level.

May you fly high and shine in all your endeavors.

Congratulations our graduating class of 2022.

MESSAGE FROM THE DEAN OF SCHOOL OF MEDICINE & HEALTH SCIENCES

Prof. Alice Mutungi,
MB; ChB., MMed, MPHIL., MSc

Enhancing Skills Based Education and Training for Sustainable Economic Development.

The School of Medicine and Health Sciences extends a warm welcome to all our graduands and guests to the 22nd Graduation ceremony for Kenya Methodist University (KeMU).

Our graduands, today we affirm your accomplishments; your commitment to pursuing and successful completion of your various degrees and diplomas will enable you to make a mark in the world as future leaders, practitioners,

researchers, and educators. You have been empowered with the knowledge, skills, understanding, values, and actions required to create a sustainable world that ensures environmental protection and conservation, promotes social equity, and encourages economic sustainability.

To all graduands of the School of Medicine and Health Sciences, as current and future health professionals, we encourage you to embrace inclusivity wholeheartedly because the people you serve are from all walks of life. You are well-equipped to make informed

decisions and take responsible actions for economic viability, environmental integrity, and just society for present and future generations while respecting cultural diversity.

To all 2022 graduands, we applaud you for your individual and collective accomplishments. We are confident that you will represent KeMU as alumni who will impact the world in significant ways in your future endeavors. The entire School of Medicine and Health Sciences faculty and staff are very proud of you.

Congratulations!

Dr. Lawrence Mwenda, PhD
Dean, School of Science and Technology

Using Technical Skills to Solve Social Issues

I'm proud that we have prepared intellectual and creative scientific leaders of tomorrow through our exceptionally strong educational programs. In the current Technological era, ICT is one of the world's fastest-growing sector. Our university understands the importance to develop and build on ICT skills given that two-thirds of the jobs in the near future will require these skills.

It is estimated that in the next 10 years a huge percent of the jobs globally will require a blend of Science, Technology, Engineering and Mathematics (STEM) and nearly one new STEM job will replace other four non-STEM jobs, seriously putting some

careers at the risk of extinction. The focus on STEM programs is the key to proof of a culture of innovation that our communities will embrace for changes that are adaptive.

If we want to feed the world in 2050, then in the next 20 years we need to produce the same amount of food as we did over the last eight thousand years. This is an indication of the pressure on the food system as we face a huge challenge with a growing population, changing consumption behavior and the global climate crisis.

Then, how do we secure our food production? The real secret is a sustainable production through smart farming by embracing science and state-of-the-art

technology, with less fertilizers, less pesticides, and minimum water needs. Thus, I believe strongly getting young people interested in STEM, is for a better tomorrow for all mankind. Therefore, quoting William Butler Yeats that education is not the filling of a pail, but the lighting of a fire.

Congratulations!

MESSAGE FROM THE DEAN OF SCHOOL SCIENCE & TECHNOLOGY

MESSAGE FROM THE DEAN, POST GRADUATE STUDIES

Dr John Muchiri, BSc., MSc., MSc., PhD.
Dean, Postgraduate Studies

Look Beyond The 'World – Class Instruction' be a catalyst for a Sustainable world!!

Congratulations to class 2022, today is your commencement day after years of hard work. This is a key milestone for you, your parents' guardians, sponsors and the university because it signifies your readiness to move to the world. We join you in giving thanks to God and acknowledge God's faithfulness in this journey. Many got distracted or lost confidence or just gave up and therefore are not here today to celebrate. God's sunshine has shone on your path and given us all victory. Kenya Methodist University has given you an academic qualification that you can believe in. More so, the university has instilled moral values; integrity, hard work, honesty, personal responsibility among others. These and many other attributes will propel you to success in life.

The theme 'Enhancing Skills Based Education and Training for Sustainable Economic Development' captures the mood of competency-based education and the need for sustainable utilizations of resources. Take advantage of knowledge you have acquired, opportunities arising from advancements in technology, to hibe a niche for yourself despite many existing challenges to offer solutions. In the environment you are about to enter, go provide leadership, display understanding, exercise patience and innovate because the society will many times call on you to show the way. Kenya's vision 2030 is in its last decade, after which Kenya attains the middle-class economic status. Join hands with fellow citizens, provide possible alternatives and pride yourself as an active contributor to the economic development. Play an active role in contemporary issues like Climate change and climate justice, do not be a fence sitter but rather be a pivot for sustainability.

On behalf of the directorate of postgraduate studies we are proud for having been in the forefront in supporting our postgraduate students and faculty to fast track their progress. The adaption and use of technological resources to provide active interaction has been most helpful especially during the Covid-19 pandemic period. We shall continue to raise the bar of excellence and support by organizing skills training and workshops to both students and faculty and by being available to walk the journey with you. Be our goodwill ambassadors in the world where you go to serve and also enlist for higher learning in other areas.

Now as you go into the world, inspire yourself to climb higher heights and build a community of excellence. Look beyond the 'world-class Instruction' and be a catalyst for sustainable a sustainable world!

Dr. John Muchiri, PhD.

Harnessing Technology: Tranforming Teaching and Learning

On behalf of the DVBL team, I congratulate the graduating class of 2022. We're honoured that you chose KeMU as your university of choice. Our Directorate of Virtual and Blended Learning is harnessing the power of new technologies to improve education. This means using various media and learning tools to help students learn in a more engaging way. Our faculty are well-equipped to teach in this new environment, and they prepare learning content that is visually stimulating and

Mrs. Jenu John

Directorate of Virtual & Blended Learning (DVBL)

interactive. In addition, our students today have access to a wealth of information and resources on their own, so our faculty now play more of a facilitative role in guiding students towards learning independence. We believe that KeMU provides the best teachers and trainers to help students and learners take ownership of their education.

As we graduate the 2022 class, we believe that they are ready to enter a competitive workforce. They will need to keep up with their skillset and be willing to learn more on their own, as we have prepared them for that.

MESSAGE FROM THE DIRECTOR DVBL

We wish all of you all the best in your future endeavours. Congratulations once again!

**MESSAGE FROM THE
DIRECTOR, RESEARCH,
INNOVATIONS & EXTENSION**

Prof. Wanja Tenambergen

Director, Research, Innovations and Extension

I wish to congratulate the class of 2022 for this great achievement. Your perseverance, hard work and strength of character have brought you this far. You are now ready to use your skills and knowledge to make the world a better place.

The Directorate's mandate is to support and advance the university's research and innovation function. We work closely with all departments, as well as external partners to provide leadership, guidance and support services in order to advance research. Our objectives are to:

"The significance of research for the improvement of society"

- Provide support in grant writing.
- Oversee grant and funding administration.
- Develop research collaborations.
- Promote linkages between industry and academia.
- Support innovation, entrepreneurship and knowledge transfer.

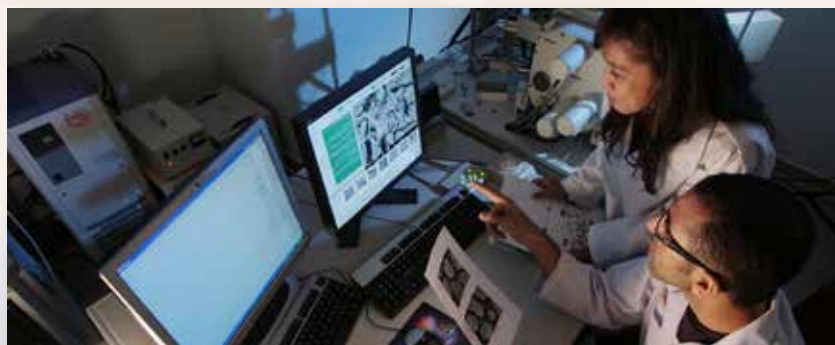

Research propels humanity forward – it is driven by curiosity. As researchers we get curious, we ask questions, and immerse ourselves in discovering new things. Without curiosity and research, progress would be slow and our lives would be completely different today. For example, we would not have discovered internet, understand the importance of bees or be close to finding cure to cancer. In KeMU,

research is finding its place in the minds of students and faculty. Students are eager to make discoveries and to create solutions to the challenges of this world.

Research is needed for all sectors of human life: social behavior, economics, environment, technology, health, learning and teaching. The exercise of analyzing a situation and planning solutions in a team provide important soft skills. The learning of these skills constituted an important part of your academic life. We hope you will continue to use these skills to find solutions to the challenges we face today.

We look forward to you coming back to visit us and hope you will share your acquired wisdom with the students who are on their journey.

Congratulations!

**MESSAGE FROM THE
DIRECTOR, KeMU TVET
INSTITUTE**

Mr. Nicholas Riungu
Director, KeMU-TI

Congratulations on your graduation, class of 2022.

We are living in a time when the world is continuously looking for competent persons who are ready and able to apply the knowledge and skills acquired to transform the society. People who are eager to make a positive difference in every place they are granted an opportunity. During your study at KeMU, you have been equipped with Knowledge, skills and attitudes that will enable you to conquer the world out there. You have been molded not only academically, but also socially and spiritually, into a wholesome person who is capable to drive the needed transformation. As you graduate today, I encourage you to go out and apply all the skills acquired while in KeMU. I also encourage you to focus on continuously growing your skills to fit into the world that is dynamic and ever changing. I pray that God grants you the zeal and strength to pursue your dreams in the employment world, and grant you success in all your future endeavors. Congratulations.

MESSAGE FROM THE MANAGING DIRECTOR, KeMU HOLDINGS LIMITED

Mr. James I. Muthee

Director, KeMU Holdings Ltd.

Congrats!

reside, we have advanced plans extend the catering services to the Greenland hostels. At KHL, we have extensively employed ICT as a core management feature at all levels, not only to achieve the benefits that accrue from the use of the technology, but also, to showcase effective application of ICT in organizational management. And in line with the global outlook for environmental preservation, we at KHL are at advanced stage to be a paperless arena, where e—business transactions are completed in a paperless environment.

In closing, may I entreat you to always trust in the Lord with all your heart, and do not lean on your own understanding. In all your ways acknowledge Him, and He will make straight your paths (Prov. 3:5-6). The Lord bless you and keep you; the Lord make his face to shine upon you and be gracious to you; the Lord lift up His countenance upon you and give you peace (Num 6:24-26).

On behalf of KeMU holdings staff, may I join the rest of the university community to congratulate the 2022 graduating class. It has been a worthy journey towards a target whose achievement is being confirmed today. Its realization is borne out of the many sacrifices by yourself and your supporters, and the many hours of learning and research undertaken under the watchful tutelage of the lecturers. You have surely been trained, examined, qualified and today, you get the powers to read and do all that appertains to what you have acquired here at KeMU.

KeMU holdings Ltd is a subsidiary of Kenya Methodist University, which handles income generating activities that are not directly involved with students. These activities are geared towards generating that extra income apart from tuition revenue, for financial sustainability of the university. This section of the university also provides the business side of the university, providing industry linkages and practical training for our students and others, especially in the areas of agriculture, business and hospitality.

At KHL, we strive to offer the best in the catering range, ensuring that our students' body get nourished affordably and safely. Over the years, we have continues to provide a balanced diet to our students at our main kitchen (which is our main outlet at the main campus), and also at our branches, including the Meru Town Campus. In an effort to always provide the services at where the students

Dr. Lucy Ikiara, B Ed, M Ed, PhD. Director Quality Assurance and Curricula

MESSAGE FROM THE DIRECTOR, QUALITY ASSURANCE & CURRICULA

"Our customer our priority"

Education is the most powerful weapon we can use to change the world—Nelson Mandela". On this auspicious and a momentous day, the Directorate of Quality Assurance and Curriculum wishes to congratulate the class of 2022 graduands on their great achievement. Hey, your future is bright. For all the times of late night studies, lack of sleep and sacrifice of enjoyment your reward has finally come. Congratulations to you all!

The Directorate of Quality Assurance and Curriculum is established office in the University responsible for maintaining and assuring the quality of all products and services offered by the university including programmes and processes. The Directorate continually and systematically monitors University programmes and processes to ensure they meet set standards. The process is guided by internal and external laws and policies governing University Education in

Kenya. Specifically internally the Directorate is guided by Quality Assurance and Curriculum Development policies.

The Directorate is responsible for managing various functions, roles and responsibilities which include but not limited to; ensuring that set performance standards and indicators in all aspects of University functions are appropriate and relevant; monitoring and implementing quality assurance activities in all units in accordance with the set standards; providing advice and guidance to implementation units on the execution of quality assurance activities; coordinating internal evaluation of quality assurance systems; analysing quality assurance reports and identifying issues arising from them for the attention of the University Senate and Management at academic and administrative levels of the University; coordinating all professional accreditation activities and external evaluation activities of the University and its academic programmes; monitoring

the implementation of recommendations of internal and external evaluations; linking the University with the Commission for University Education and other relevant regulatory bodies in quality assurance matters; Implementation of ISO standards in the University. In carrying out these functions and responsibilities, the Directorate works closely with schools, units and departments of the University. The Directorate also works closely with regulatory bodies. The Directorate of Quality Assurance and Curriculum guiding principle is to promote a culture of continual improvement in the University taking into consideration stakeholders needs. Our slogan "Our customer our priority"

MESSAGE FROM THE COORDINATOR CLPD

Mrs. Jacinta Magaju

Coordinator, Centre for Leadership and Professional Development (CLPD)

Re-tooling for Skills- Based Education and Training for Sustainable Economic Development

On behalf of my team at CLPD, I congratulate you and welcome you on the other side of KeMU where we're re-tool for professional development.'

Whereas in formal education skills based education is applied knowledge through experience. This graduation has ushered you into a journey towards the workplace. For today's competitive and crowded workplace, professionalism and reflection of competencies, continuous professional development will get more productive, efficient and effective. Moreover, only continuous life-long training will help you in creating a niche for yourself and as such stand out from the rest. At KeMU's

Center for Leadership and Professional Development, through partnerships, collaborations with professional bodies and accrediting organizations, we offer professional training through its repository of trainers and experts

'As CLPD we also offer skills enhancement for graduates who highlight the gaps that emerge in your knowledge from experience in the workplace. This will help you to be better prepared to make new contributions in your work as well as chart your own progress in life'

We offer a wide range of tailor-made, market-driven and skills based professional and short courses, training and consultancies. This include Health systems

management, Property management, Computer and networking, Cybersecurity, Accounting (CPA), Human resource (CHRP), Security, Special needs, Strategic Leadership and Management, Environment and Mental wellness among others.

We are at advanced level in preparing the Teacher Professional Development (TPD). Therefore, after you graduate today, we encourage you to consider enrolling again for this and other professional courses for a greater advantage in your job entry

'The future belongs to those who learn more skills and combine them in creative ways.'

-Robert Geene(American Author)

Mr. Daniel Ochieng

Head, ICT

MESSAGE FROM THE HEAD, ICT

Congratulation to the graduating class of 2022.

This is a major milestone for you. Today is also a game changer for you as you commence your walk to your career and future aspirations. The knowledge you have acquired coupled with skills in

technology is the key to the opening of new opportunities in the job market; do not stop here but aim higher.

Hongera!

MESSAGE FROM THE CHAIRMAN KeMUAA

At KeMU, you've been encouraged to "take risks, to try out new ways of thinking, to test intellectual limits, and to find a unique voice." So you have a tremendous head start. But remember, life always consists of ups and downs, successes and failures. Failures are nothing more than lessons in disguise. They eventually lead us to wisdom and prosperity. Visionary leaders make work environment risk-free. They give their people the freedom to fail; and by doing so, they ultimately succeed.

In 2013, I co-founded the EBV Motors Dealership. This was exactly one year after graduating from KeMU. I experienced negative reviews on my dealership business, this was very discouraging and slowed me down. However, I remained visionary and focused to my dream of growing my dealership business which was at infancy stage and to date it's a success. As you start your next chapter today, I assure you that trusting ourselves and our own vision is very rewarding. You don't have to buy into the negative reviews. And

Philip Nyange Maobe- Chairman KEMU
Alumni Association- MBA

"Failure is not opposite of Success but part of Success!"

in fact, that's about the time when you can use your famous laughter and sense of humor to get you through. And watch all times Kenyan Churchill show or Dr Kingori's "The Wicked Edition" online it will give you laughter that will brighten your day. Easily buying into the talk that "Angels fly because they take themselves lightly" -- the one that has proved most useful in my life is the understanding that failure is not the opposite of success, it's an integral part of success.

The other thing that can dampen our spirits is when things go wrong in our personal lives. And as somebody on this side gazing at you from 18 as we Kenyans popularly put it... let me tell you -- they often do. And things -- especially the biggest heartbreaks -- often only make sense as we look back, not as we are experiencing them.

Remember that, okay? In life, the things that go wrong are often the very things that lead to other things going right.

Understanding this means not letting negative experiences get in our way. And not letting that voice of doubt, which I call the "Ngoma" roommate living in our heads, have the last word. I realize that some of you will soon have to contend with actual 'Ngoma roommates'. So this makes it even more important for you to silence the

metaphorical one. Because that's the one that can do you the most damage. Your actual negative college roommate will just borrow your favorite cocktail dress without asking and then spill red wine on it and then not even tell you, and then you're like, "Did you really think I wasn't going to notice?" But the one in your head -- she'll keep you from living out your dreams for the rest of your life. Because, as Montaigne said, "There were many terrible things in my life, but most of them never happened."

As we go out, let us believe in ourselves and explore our potential that will catapult us to exploit existing opportunities to be of great service to other humanities to change the universe and make it a better place. Always remember there are four elements of one's character which if cultivated, they guarantee success: the first element is discipline, the second concentration, the third is patience and the fourth one, persistence.

Lastly, I request all graduands to join the Alumni Community and be part and parcel of the KeMU, Alma Mater, by subscribing as a member of KeMUAA, since this will broaden your network and together we will support the university for the greater Glory of God.

Once again Congratulations and May God bless you all.

PhD GRADUAND TESTIMONIAL

Malkia Moraa Abuga (PhD Health System Management, Graduand 2022)
Senior Public Health Officer, Nairobi City County

Harnessing Technology for Holistic Education

On behalf of the class of 2022, kudos! Our current success is a testament to our tenacity and perseverance. Please enjoy this moment of well-deserved success. May we have the boldness to seize the opportunities that life presents, as we

begin the next chapter of our lives. Regarding my colleagues who haven't yet reached the highest level of academic achievement, don't let this spell the end of your success in school. Your academic progress is still possible at KeMU.

In line with the theme "Enhancing Skills Based Education and Training for sustainable Economic Development," the university has given us the knowledge, skills, competencies, and values that we need to contribute to the improvement of the world. Let us strive to do our best in the next phase of our lives.

I take this opportunity to thank KeMU for the opportunity to study Health System

Management. My previous perspective of the health system was changed by the program to one that emphasizes on system thinking. Health systems thinking is a critical approach to optimizing health care systems at all levels of management. Thank you to the entire KeMU fraternity for creating an environment conducive to learning and innovation. The excellent assistance provided by the lecturers and staff cannot be taken for granted.

Whenever you doubt your ability to achieve success, remember that God has good plans for you (Jeremiah 29:11)
Bravo!

Nangabo Interjit Mista
BSc., Information Science.

BACHELOR GRADUAND TESTIMONIAL

Finally, we have done it. From the high school life to what is referred as CAMPUS LIFE. The fear of being swallowed with this "life" probably due to stereotypes of how students in campuses would behave, was one of the glaring thoughts, but the joy of pursuing the next level enormously

"Knowledge Creates Courage."

overthrew the fear. With only less than a year in the institution a pandemic that no doubt disrupted life happens, but with the robust shift to online learning platform, we have indeed overcome.

Studying at Kenya Methodist University has been the best, particularly after joining drama club, one among the best clubs in the institution set to nurturing young minds to acting. As we celebrate our efforts we should not forget the excellent work from various departments and sections in KEMU, their distinguished services has enabled us to acquire what we are celebrating today. Let the knowledge we have acquired

throughout this period be an encouragement to our daily working hard and set forth to improving the societies. Strive to be innovative, honesty and of integrity since we are now great knowledge managers.
"A lack of knowledge creates fear, seeking knowledge creates courage" – George Shaw.
Class of 2022.

CONGRATULATIONS ON GRADUATING AND
HERE'S TO YOUR NEXT ADVENTURE.
"HURRAY"

MESSAGE FROM THE PRESIDENT, KeMU STUDENTS ASSOCIATION

Abdi Adow.

Kenya Methodist University Student's Association President

Congratulatory message to the class of 2022

On behalf of the KeMU Students Association (KeMUSA), I wish to pass our congratulatory message to all the graduating class of 2022.

We are very delighted for you on this beautiful occasion as you deserve to be recognised for all the years of hard work and commitment you put in to achieve this great feat.

Behind you now is yesterday; let the experience and knowledge that you have acquired from this world-class University pave the way for greater things to be achieved in your lives. Here's to you and to your success and we are sure you'll give it your best out

there. Use this achievement that we are celebrating today to launch yourselves: into other education opportunities, personal goals or career job prospects. This is just but the beginning, you have the courage, dedication and skills to achieve what you have achieved today.

Indeed, the tassel is worth the hustle! You did it! Congratulation on filling a minimum job requirement.

Hongera Sana Class of 2022!!!

Abdi Adow

KeMUSA - President.

HYMNS AND ANTHEMS

THE NATIONAL ANTHEM

O God of all creation
Bless this our land and nation
Justice be our shield and defender
May we dwell in unity
Peace and liberty
Plenty be found within our borders.

Let one and all arise
With hearts both strong and true
Service be our earnest endeavor
And our homeland of Kenya
Heritage of splendour,
Firm may we stand to defend.

Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving

EAST AFRICAN COMMUNITY ANTHEM

Ee Mungu twaomba uilinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu.

Jumuiya Yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu.

Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Na tulinde Uhuru na Amani
Mila zetu na desturi zetu.

Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora.

COUNT YOUR BLESSINGS

1. When upon life's billows you are tempest tossed,
When you are discouraged, thinking all is lost,
Count your many blessings name them one by one,
And it will surprise you what the Lord hath done.

***Count your blessings, name them one by one;
Count your blessings, see what God hath done;
Count your blessings, name them one by one,
And it will surprise you what the Lord hath done.***

2. Are you ever burdened with a load of care?
Does the cross seem heavy you are called to bear?
Count your many blessings, every doubt will fly,
And you will be singing as the days go by.
3. When you look at others with their lands and gold,
Think that Christ has promised you His wealth untold.
Count your many blessings, money cannot buy
Your reward in heaven, nor your Lord on high.
4. O amid the conflict, whether great or small,
Do not be discouraged, God is over all;
Count your many blessings, angels will attend,
Help and comfort give you to your journey's end.

LEANING ON THE EVERLASTING ARMS

1. What a fellowship, what a joy divine,
Leaning on the Everlasting Arms!
What a blessedness, what a peace is mine,
Leaning on the Everlasting Arms!

***Leaning, leaning,
Safe and secure from all alarms;
Leaning, leaning,
Leaning on the Everlasting Arms.***

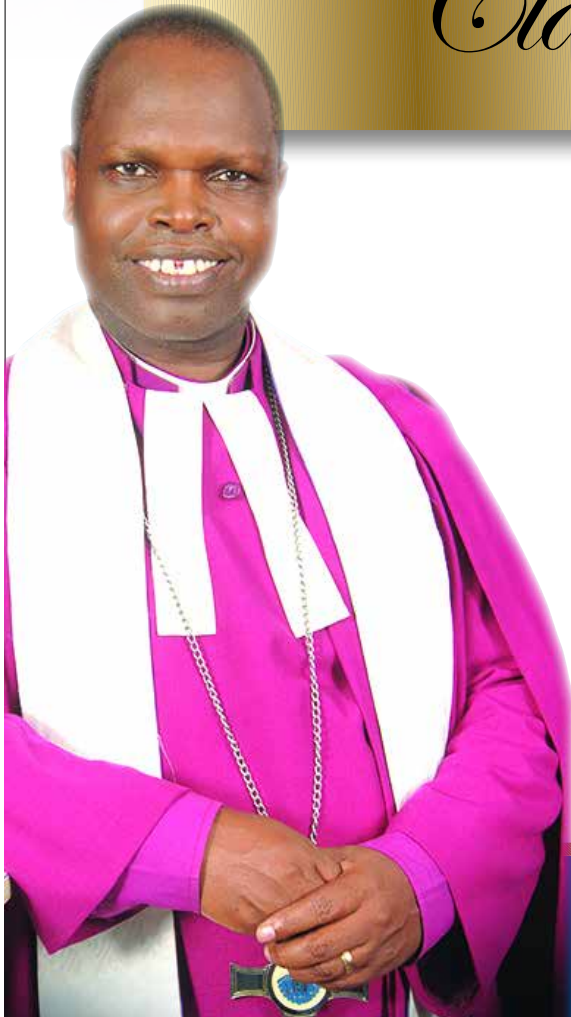

2. O how sweet to walk in this pilgrim way,
Leaning on the Everlasting Arms!
O how bright the path grows from day to day,
Leaning on the Everlasting Arms!
3. What have I to dread, what have I to fear,
on the Everlasting Arms!
I have peace complete with my Lord so near,
Leaning on the Everlasting Arms!

METHODIST CHURCH IN KENYA

Witnessing for Christ in Transforming Lives

*Congratulations to the
Class of 2022*

On behalf of the Methodist Church in Kenya, East and Central Africa, we wish to congratulate Kenya Methodist University on her 22nd Graduation Ceremony. To the 2022 graduating class we celebrate your hard work and commitment. God bless you, God bless KeMU.

REV. JOSEPH NTOMBURA MWAINI

The Presiding Bishop, Methodist Church in Kenya

KEMU SACCO

Together we Build One Another

KEMU SACCO LTD WAS REGISTERED UNDER THE COOPERATIVE SOCIETIES ACT (CAP 490) ON 10TH JULY 1997 AS AN INITIATIVE OF KENYA METHODIST UNIVERSITY EMPLOYEES.

VISION

Our vision is to be the SACCO of excellence in the provision of innovative and competitive financial Solutions.

MISSION

Our mission is to mobilize and manage members' resources through provision of market-driven financial solutions so as to empower, achieve financial freedom and improve members' welfare.

OUR MOTTO

Together we build one another.

GOVERNANCE

KEMU SACCO is governed by Board of Directors (9) members and a Supervisory Committee of three (3) members who keep an eye on the affairs of the Society.

The Management is committed to offer excellent services with courtesy, honesty, integrity and impartiality, and pledge to handle your needs with confidentiality while giving your needs the urgency they deserve.
